

monoguard

Monoguard article surveillance systems provide an economic solution to prevent shoplifting primarily in fashion stores, jeans- and sportswear shops.

* variations

chrome

black

silver

wood

* accessories

The **monoguard** system is compatible with any RF tag and label types as well as with **loxys** media safers.

- + Soft tags (for thinner clothing, like fine lingerie, etc.)
- + lanyards (small diameter wire-cable with loop to protect bags, etc.)
- + tag detacher
- + portable base plate

* benefits

- + A single antenna can provide protection to an exit of up to 2m
- + By picking the right style of antenna the system will be an excellent match to any shop design
- + One electronic module is capable of controlling up to 3 antennas thus enabling the protection of exits of up to 4.20 m in width
- + The antennas can be mounted on an optional portable base plate
- + Due to its advanced digital technology the system is practically free of false alarms

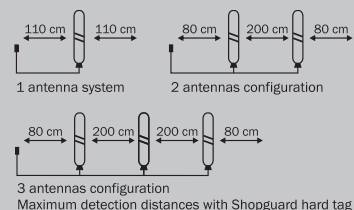

loxys >

Shopguard's internationally acclaimed brand of safer/keeper products provide extended security for all kinds of high value individual products in the self service retail environment. Loxys safers are available with RF, AM or EM protection. More info: www.loxys.com
